

**Friends of Ten Mile River Inc.
a 501.C3 Non-Profit Supporting Ten Mile River Scout Reservation**

We are pleased to announce our 2021 campaign to contribute informational, historical and directional signage, in support of the Greater New York Council's program at Ten Mile River Scout Reservation. This project was started over a year ago with funds remaining from the 90th Anniversary. The Museum and Trail Committees have collaborated to design and produce signage to mark various historical sites at TMR as well as directional and informational signage at major crossing points along the Red Dot Trail. FOTMR has already provided most of the posts and hardware used to install these signs and FOTMR members have done much of the installation work. We now seek to acquire the remaining directional and informational signs needed along the trails, as well as signs to mark additional significant and historic places within Ten Mile River.

Installation of a single post and sign costs approximately \$60.00. Each additional sign on a single post adds about another \$40.00. Please see the photos above for examples of some that have already been completed. As in recent years, in lieu of annual dues, the Friends of Ten Mile River ask our members and supporters to contribute whatever they feel they can towards our mission.

Contributions can be sent to:
